He searched and search in the internet but he only get the link for portal 1, 2 and 1.5 s7-1200. We also work on the telemetry of the parameters of the valves, this works great, and we can view the parameters by the PLC software. There was more than one user and they were working on their own process from the same PLC. One of them had not closed their software properly, and that was why the program was blocked. portal, portal 2, portal meaning, portal 3, portal facebook, .
