Field of the Invention The present invention relates to a fuel injection system for supplying fuel to an internal combustion engine and more particularly to an air/fuel ratio control system for an internal combustion engine which is supplied with air and fuel from an air/fuel ratio control system for an internal combustion engine which is supplied with air and fuel from a carburetor. 2. Description of the Prior Art A fuel injection system for an internal combustion engine generally comprises a fuel injection valve which is connected to a fuel supply passage for the engine so as to be supplied with fuel from the supply passage and an air/fuel ratio control system for controlling an air/fuel 2d92ce491b
